About the Equine Performance Centre

Our newly renovated facility offers everything you need to ensure safe, customized care under the guidance of our team of veterinarians, bodyworkers and specially trained staff. Available for ship-in care.

Benefits of a ship-in equine veterinary clinic

Save time

Same-day vet care, imaging, and treatment modalities — all available under one roof.

Quicker & better outcomes

A comprehensive, whole horse approach to diagnosis and care helps maximize results.

Peace of mind

Get back to riding with confidence in your equine partner's comfort.

A reputation built on trust and transparency

In the equine world, having a performance edge can make all the difference. For over 20 years, McKee-Pownall Equine Services has been delivering consistent and personalized veterinary care focused on improving horse performance and comfort.

Only the finest care

Cases requiring daily veterinary care, skilled supervision, or frequent treatments receive meticulous attention at McKee-Pownall's Equine Performance Centre in Caledon.

Top Quality

Our veterinarians and specially trained staff can help to identify problems and issues early on before they turn into more chronic concerns.

Our team takes pride in providing timely communication with clients and referring veterinarians.

Want to learn more about equine health and care?

Tune into the EquiConnect Podcast on your favourite player to learn more about the latest trends and best practices right from our team of equine experts.

- *NEW EPISODE!* **Equine bodywork**: Marnie Raymond talks about the bodyworker's toolbox.
- **Eye care**: All things equine ophthalmology with Dr. Tara Richards.
- **Breeding and reproduction**: Dr. Rafael Gomez explains what you need to know to get a mare ready.
- **Embryo transfer time**: Learn about embryo transfer from Dr. Jim Welsh.
- **Equine dentistry**: Dr. Marisa Markey explains why dental care is more than just a float.
